VITAL FORCE COMES FROM RED BLOOD

Vital force is the material from which leaders in all walks of life are fashioned. It is well worth acquiring—well worth building. Build up your blood with careful habits of living and Pepto-Mangan. "The Red Blood Builder," and you, too, will have vital force.

The abounding health of the trained athlete is what Nature meant every man, woman and child to have. The blood of the athlete is pure and red. And a strong heart pumps and drives it through the blood vessels. Small wonder that every cell and tissue of his body is filled with energy. His brain is clear, his spirits run high. He is keyed up like a Kentucky racehorse, yet not nervous. Do you not envy him? Can you not see that hard tasks are pleasures and hours golden moments to men and women who are red-blooded?

Pepto-Mangan

"The Red Blood Builder"

If you are not red-blooded, build up your blood with regular exercise, fresh air, sleep, plain, nourishing food, and Pepto-Mangan, "The Red Blood Builder." Then you will have the vital force to do easily the tasks which now you very likely have to do on nerve alone.

Pepto-Mangan feeds the red blood cells with the elements they need.

It is universally used and pre-

scribed by the medical profession as a general tonic and appetizer.

It is easily digested and exceedingly pleasant to taste. Good for weak and run-down people of all ages.

Be sure that you get real Pepto-Mangan which is sold only in the original bottle and sealed package shown above bearing the name Gude, for there are many unscrupulous substitutes and counterfeits. For sale at all drug stores.

FIGHTS CROSEY ORDER FOR RIVERSIDE INQUIRY

Corporation Counsel Hardy maintains Justice Exceeded His Authority in the Matter.

Corporation Counsel Hardy applied to the Appellate Division in Brooklyn this afternoon for a writ of prohibition to restrain Supreme Court Justice Crosey from carrying out the provisions of an order under which Justice Crosey on Saturday morning has arranged to examine Mayor Mitchell, Comptroller Prendergast, Public Service Commissioner Whitney and others relative to the negotiations entered into between the city and the New York Railroad Company in the matter of the west side improvements.

Mr. Hardy maintains Justice Crosey exceeded his authority when he issued the order. The Appellate Division is expected to decide the question by to-morrow.

900 BAYONNE GIRLS STRIKE.

Pay Increase Comes So Easy They Demand Another and Are Refused.

Nine hundred girls employed at the Rayonette plant of Schwarzenbach & Huber, silk manufacturers, yesterday made a demand on the firm for an increase of ten per cent in wages. They had been earning ten to fifteen dollars a week on piece work. The firm granted the demand without delay.

The increase came so easy that this morning, after thinking it over the girls announced a demand for an additional increase of twenty-five per cent. The firm refused to grant the new demand so the girls went on strike.

Propose One Athletic Commissioner at \$6,000 a Year.

ALBANY, March 8.—Provision for a single-handed State Athletic Commissioner to be appointed by the Governor, is made in a bill introduced to-day by Assemblyman E. H. Miller. The salary of the new commissioner is fixed at \$6,000 a year.

Fireman Samuel Walter and Patrick H. Jordan, two of the forty members of the department overcome by chlorine gas at the fire which destroyed the building at No. 211 West Fifty-ninth Street last night, were reported improving to-day at Flower and Bellevue Hospitals. A majority of the two-score firemen who were knocked out by the poisonous gas were back at their work, though physicians say there still is danger of pneumonia setting in as a result of their experience.

The overpowering fumes came from the laboratories of Morganstein & Co., in which the fire did \$250,000 damage. It has developed that the Fire Prevention Bureau had ordered three large tanks of chlorine removed from the building, an order which had not been complied with.

The choking fumes quickly drove the spectators at the fire to cover. The police supervised the dismissal of an audience of 500 persons, mostly women and children, from a moving picture house next door to the burning building.

Protests When Roke Reveals Badge Emblem While Reporters Are Describing Melting Pot.

Newspaper reporters told the jury before Judge McIntyre in the trial of Bonck White and his ten associates to-day the details of the ceremony at the Church of the Social Revolution on June 1 which resulted in the indictment of the eleven for desecration of the American flag.

The two men who were called had the original notes they took. Their testimony was repeatedly interrupted by White, who insisted on disputing with reporters the use of certain words in the speeches made while the flags of nine other nations were thrown into the "melting pot" in which a fire was burning.

Assistant District Attorney, Roke replied with patriotic arguments in favor of the witnesses, and on one occasion he thrust his coat back and displayed a large badge flag.

White immediately objected and Mr. Roke explained that it was one of the badges used to welcome the Sixty-ninth Regiment back from the border. He continued to wear it despite White's objection. The "melting pot" in which the flags were burned was brought in to the courtroom, to be used as an exhibit later.

Officers enrolling for the Naval Reserve will wear a letter "N" on their collar and will be given a naval rank corresponding with their rank in the merchant service. It is expected that every officer sailing under the American flag will enroll. Lieut. 165 SOUTHERN BEAUTIES LIGHTEN UP BROADWAY

Six Pullmans of Girls From Tennessee School Arrive to See the Sights.

One hundred and sixty-five pretty girls from the South—pupils of the Ward-Belmont School of Nashville, Tenn.—arrived in New York this morning. They are seeing the country as a reward of hard work and devotion to their studies. Their train was a special of six Pullmans. A little after 9 o'clock they lightened the rainy gloom of Broadway by fluttering into the Hotel Cumberland out of a procession of taxis and auto buses. They left Nashville a week ago Tuesday, headed for Washington, where they saw the President inaugurated.

After breakfast the party, chaperoned by Dr. J. D. Blanton, President of the school, and Misses Blanton, Cox, Appleby, Boulware, Buchanan and Mrs. House, began a day of sight-seeing.

The Ward-Belmont School has 500 pupils. Each spring and fall there is a trip to see the marvels of the land. All of the girls in to-day's party declare they will see the Atlantic Ocean.

Members of Guard Regiment Ready to Re-enlist Should War Be Declared.

Unless there is some unforeseen hitch the Sixty-ninth Regiment will be formally mustered out of the Federal service at the armory to-morrow afternoon and will again become a unit of the New York National Guard. Immediately the regiment leaves the regular army Col. William N. Haskell will submit his resignation to Gov. Whitman and return to his duties in the regular army.

The work of returning to the Government the equipment issued to the Sixty-ninth went on at feverish haste in the armory to-day. At the same time the payrolls were being prepared and privates and officers were undergoing physical examination. The members of the Sixty-ninth are practically unanimous in the determination to re-enlist in the regular army for the length of the war should war be declared.

No definite information can be obtained as to who is to be chosen colonel of the regiment to succeed Col. Haskell.
